

## TRANSPORTS TO CARRY PHILIPPINE FREIGHT

Lack of Shipping Is to Be Supplied by United States Government Vessels.

Because of the lack of shipping facilities between the Philippine Islands and the United States army transports will be utilized for carrying goods from the islands which could not be transported in any other way.

The quartermaster general of the army has found that about 3,000 tons of goods will be available on each ship. Secretary Garrison will instruct Gov. Gen. Harrison to invite proposals from shipping companies to carry all exports of goods to the government transports, so that nothing will be carried by the government which could be handled by private shipping.

POINTED PARAGRAPHS.

Don't expect two favors in return for one.

A little learning may excuse a man from jury duty.

The wise word turns in before the early bird turns out.

Love may be blind, but small brothers see everything in sight.

Fewer marriages would be failures if love were blind only in one eye.

Some people make a specialty of condensing the milk of human kindness.

A woman never forgives a man she has insulted if he fails to apologize.

You may lead the landlord to your house, but you can't always make him repair it.

And there are men who make a specialty of being honest because it pays better than dishonesty.

When men grow suddenly good it's dollars to doughnuts they are thinking of running for office.

While the fool sits around and worries about the living the world owns him, the wise guy gets busy and collects the interest on the debt.

The successful man roots while his unsuccessful brother stands around and squeals.

Yet a millionaire can say more in ten words than a penniless man can say in 10,000.

Grass is naturally green, but after a man has bumped up against a grass widow he is apt to imagine he is color blind.

A woman is seldom as fussy with her children as she is with her husband.

## NINE WILLS FOR PROBATE ARE FILED IN COURT

Israel Everett Vail Makes Numerous Bequests to Relatives—Contents of Documents.

The will of Israel Everett Vail, dated October 17, 1911, was entered today for probate. Bequests of \$100 each are made to his sister, Mrs. E. S. Motter; to a niece, Mrs. M. C. Jeter, and to a grand-nephew, Everett Vail Jeter. The children of John Bakewell are to receive \$200, to be divided among them, and the sum of \$150 is to be distributed among the children of Mrs. E. S. Motter. Bessie V. Russell, a niece, is named to share equally in the distribution of the remaining estate. Mrs. E. S. Motter is named as executrix.

With the exception of small cash bequests to his sister, Susan Tinsley of Peoria, Ill., and to the children of his deceased sisters, the entire estate of Israel Everett Vail is devised to his wife, Mary Jackson. She is also named as executrix.

By the terms of the will of William W. Armstrong, formerly of Carlisle, Pa., his household effects are left to his wife, Mrs. Mary R. A. Boyd. His will, dated No. 3408 13th street northwest, be sold and \$200 be spent in the purchase of a ring proceeds to his wife, Mrs. Mary R. A. Boyd. The remaining estate is to go to John W. Houston of Carlisle, who is also named as executrix.

James Henry Jones, by his will, dated February 8, 1911, directs that his property be converted into cash. One-third of the proceeds is to go to his son, Melville E. Jones, one-third to his daughter, Bettie M. Lacy, and the other portion to his four children. Jacob W. Whifford is named as executor.

Whifford is named as executor. The will of Mrs. Ida V. Slater Doyle, dated March 10, 1915, has been filed for probate. She leaves \$10 to her daughter, Mrs. Olive May Green of St. Louis, and the remaining estate to her other children, Ruth M. Doyle and Dr. Charles N. Slater. Miss Doyle and Dr. Slater are named as executors.

The entire estate of Frederick W. Behrens is left to his wife, May B. Behrens, by his will dated January 27, 1912. Attorney Charles H. Bauman is named as executor.

The will of Mrs. Alexander M. Dunnington, dated May 20, 1914, has been filed for probate. She leaves \$1 to her husband, Charles E. Dunnington, the remaining estate to her brother, John W. Comm. The brother is also named as executor.

By the terms of the will of Julian I. Rowland, dated October 23, 1909, his entire estate is left to his wife, Mrs. Annie M. Teel. A codicil executed March 25, 1911, names the sister-in-law and N. C. Messinger as executors.

MISS ALICE PAUL HOPES TO AROUSE INTEREST IN SUFFRAGE AMENDMENT.

That a campaign is to be waged among the suffragists in Maryland to arouse interest in the Anthony federal amendment, which proposes to remove the sex qualification for voting privilege, was announced today by Miss Alice Paul, chairman of the Congressional Union for Suffrage.

"We have a great many able suffragists in Maryland," said Miss Paul, "and we will now try to get them aroused as to the importance of the federal amendment. Some of them are with us already and have helped in our Washington work."

A meeting of federal amendment suffragists is being held in Baltimore today and the situation will be discussed. One of the speakers is Mrs. Nina E. Allender.

Next week Miss Isabella Mott, organizer for the District of Columbia, will go to Maryland and speak to a meeting of suffragists at the home of Mrs. O. H. Belmont in New York, March 31, when a program for the coming year will be discussed.

Miss Paul is preparing for the meeting of the advisory council at the home of Mrs. O. H. Belmont in New York, March 31, when a program for the coming year will be discussed.

She hopes to begin immediately after the New York conference the organization of branches to the Congressional Union in Maryland.

JACKSONVILLE.

Some towns can be killed by fire; others simply have their growth stimulated by it. Jacksonville, Fla., which is a town of the latter sort, had a fire in 1901 which destroyed nearly 3,000 buildings, covering 450 acres, and apparently wiped out the town. Today most of those buildings have been replaced by modern fireproof structures, its population has nearly doubled and its business and commerce multiplied in every direction.

The visitor to Jacksonville is first struck by the bustling manner of its citizens, so different from the "dolce far niente" air he expected to find in a southern metropolis. On every side are big industrial plants. Jacksonville did a lumber business amounting to over \$3,000,000 last year. Most of its timber is yellow pine, and saw mills and other factories turn a good portion of it into building material right in the city. Turpentine, rosin and oils make over a million dollars change hands annually, while fruit and fresh vegetables are shipped to the northern markets in such quantities each week that even the progressive and enterprising hostess about giving out the value of the shipments.

Jacksonville claims, with California, to have the largest ostrich farm on this continent. It is the only one in the east, at least, and the winter tourist is pretty sure to have his picture taken beside a long-necked bird. The trick ostrich is always ready to perform, and the ostrich ranch, "Tender her independent of his friends, notwithstanding the fact that the price asked is several times their value.

Jacksonville loves the tourist, and despite the thriving industries, which make her independent of his largesse, she lays herself out to captivate him, or at least his pocketbook.

Each year a greater number of northern people elect to spend the winter there, because a mild, sunny climate is more comfortable than obtain in other Florida towns. For the tourist's benefit, a never-failing ice supply is assured by five ice companies, who manufacture ice of coolness every hour in the day. It took a progressive Yankee to discover that the picturesque Florida moss made an excellent substitute for hair in mattress making; so several large mattress factories have lately been added to Jacksonville's industrial plants.

The city is full of beauty. Generous parks, with large palm trees and flower beds that bloom throughout the year, stately churches, large modern office buildings, splendid department stores and luxurious hotels give the city an air of sumptuous and substantial dignity.

Some men achieve fame, some have it thrust upon them, and some are lucky and escape it entirely.

ARMY CONTRACT STANDARDIZATION.

Secretary Garrison has approved a plan whereby in future all army contracts will be standardized. Hereafter, instead of obtaining supplies from a number of depots, one contractor will supply but one commodity, at a cost to be based upon the standard contract price, plus freight. If depot quartermasters can make local purchases at a lower cost than articles can be obtained from contractors they will be privileged to do so.

A clean sweep of all this famous New York producer had on hand. Bought for such a low price that King's Palace makes another record in underselling.

Hemp and Milan Hems—the materials that all women are looking for—in black and every fashionable color.

It's an easy matter to sell hats at these prices, but an extremely hard matter to offer such superior qualities and styles. That's where this store is in a class by itself—beyond the reach of competition—and so widely noted for its values that the mere announcement of another King's Palace Sale means a rush of eager shoppers.

Especially prominent among the styles are the 1915 sailors in all sizes, effective pokes, tricorne and shepherdess hats, and plenty of the desirable and wanted three-cornered continentals.
